

Mortgage Valuation Report

Applicants

Application No.

Notes for Valuer

The Society encourages the saving of properties requiring substantial but manageable repairs and wishes to avoid making unnecessary retentions. As long as the property is capable of renovation, we will consider an advance based on the open market value of the property **as it currently stands**, releasing more funds as the value increases. In some cases, the construction may be such that only site value can be assessed and this figure should be given where appropriate.

Property Address

Valuations

Market value in present condition

£

Market value on completion of proposed works (as per schedule, if sent)

£

Insurance reinstatement value in present condition

£

Insurance reinstatement value on completion

£

(If Buy-to-Let)

Notice to Mortgage Applicants

This report has been prepared for the benefit of Ecology Building Society and is intended simply as an assessment of whether the security being offered to the Society is adequate. It is not a structural survey. You should not assume that if no defects are mentioned, the property is free from defect, nor should you assume that the defects shown (if any) are the only ones present in the property. You are recommended to arrange your own more detailed inspection and should not rely on this report for the purpose of deciding whether to proceed with the purchase of the property or for determining whether the purchase price you are paying is reasonable.

THE SOCIETY IS NOT THE AGENT OF THE VALUER OR FIRM OF VALUERS AND THERE IS NO AGREEMENT BETWEEN YOU AND THE VALUER OR FIRM OF VALUERS IN RESPECT OF THE REPORT.

Prepared for Ecology Building Society, 7 Belton Road, Silsden, Keighley, West Yorkshire, BD20 0EE
